TECHNICAL PROJECTS

MIREPOIX -- [FRONT](#) | [BACK](#) | [DEMO](#)

Mirepoix is a tool created for restaurant managers and chefs for tracking weekly price lists provided by vendors. It helps quickly and easily identify price changes so they can make better purchases.

- JWT Web Tokens and localStorage to store encrypted user information client-side.
- React Hooks and Recoil Hooks to set and share state across functional components.
- React Hook Forms for lightweight form inputs. Deployed on Heroku.

EXTRACTOR -- [FRONT](#) | [BACK](#) | [DEMO](#)

Extractor is an app that displays the top three RGB colors in a given image. Built as a project for school, we built Extractor to showcase our newfound learning of building a one page app using React.

- Rails API backend with ReactJS front end.
- Demonstrated routing, CSS Grid.
- Called ColorThief API without seeding.

WORK HISTORY

ALPACA MARKET- AUSTIN, TX
